PROFESSIONAL PROFILE

Developer with 5+ years of professional history. Specialized in OutSystems and back-end development. Proven track record in top consulting firms like NTT DATA, Fujitsu, and PSS.

EDUCATION

- **UCAM Universidad Católica San Antonio de Murcia** Spain
Bachelor's Degree in Computer Engineering *In Progress*
- **Pere Maria Orts y Bosch** Benidorm, Spain
Higher Technician in Multi-platform Application Development (DAM) *Completed*

TECHNICAL SKILLS

- **Core & Low-Code:** OutSystems ODC, Back-end Dev, Agile / Scrum
- **Languages:** TSQL / SQL Server, JavaScript, Python, Go (Golang), C#
- **Cloud & Infrastructure:** Azure Cloud

EXPERIENCE

- **PSS Value Added Technological Services** Spain
Software Developer *Mar 2025 – Present*
 - Full-stack enterprise application development and workflow architecture optimization using OutSystems ODC.
- **Altia Consultores S.A.** Spain
Software Consultant *May 2023 – Mar 2024*
 - High-impact development for complex public sector digital systems (See Company Projects: SORIGUE).
- **Fujitsu Technology Solutions S.A.** Spain
OutSystems Specialist *Jan 2022 – May 2023*
 - Scalable enterprise software solutions and performance tuning (See Company Projects: Atamai Freight).
- **NTT DATA Spain Centers S.L.U.** Spain
Junior Developer *Mar 2021 – Jan 2022*
 - System integrations and business logic automation (See Company Projects: EDP/Insurance).

COMPANY PROJECTS

- **SORIGUE (via Noesis/Altia)** May 2023 – Dec 2023
Waste Management Transformation Platform *OutSystems, IoT Integration*
 - Developed a robust web/mobile application for waste tracking, route planning, and compliance monitoring across Catalonia.
 - Integrated IoT (smart bins) and regional databases via APIs for real-time data; created analytics dashboards.
 - Automated workflows for truck routing and audits while ensuring an accessible UI/UX in Catalan/Spanish.
- **Atamai Freight (via Fujitsu)** Jan 2022 – May 2023
Digital Trader Services (DTS) *OutSystems, Logistics*

- Contributed to the DTS platform to facilitate international trade visibility and reduce ancillary costs.
- Worked on digital innovation features to create "invisible borders" and improve logistics flow.

- **Portfolio Mgmt & Progest (via NTT DATA)** Jun 2021 – Sep 2021
EDP Operational Applications *Traditional Web, SQL*
 - Maintained shareholder communication apps; optimized SQL queries, standardized UIs, and analyzed data models.
 - Built an operational resource app, fixed model inconsistencies, and authored a reference user manual.
- **Participação Eletrônica Sinistros AT (via NTT DATA)** Mar 2021 – Jun 2021
Insurance Event Management *OutSystems, Oracle*
 - Developed an insurance event system connecting OutSystems entities with an Oracle database.
 - Implemented multi-language modules (PT/EN/ES) and complex validation logic for cross-border operations.

PERSONAL PROJECTS

- **OutSystems AI Butler** | *React, TypeScript, OutSystems, AI* GitHub
 - Local-first "Digital Twin" for AI-assisted OutSystems development.
 - Parses Service Studio XML to visualize Data Models and Logic Flows. Exports structured, hallucination-free JSON context to supercharge LLM code generation.
- **HevyStats Analytics** | *Back-end, SQL, JavaScript* GitHub
 - Full-stack fitness data visualization platform. Transforms Hevy app exports into interactive analytics via an ETL pipeline and PostgreSQL database.
- **OS AI Architect** | *OutSystems, Python, SQL* GitHub
 - AI-powered microservice for OutSystems prototyping. Generates Entity Blueprints and T-SQL scripts from natural language descriptions using GPT-4.
- **MathWizard Extension** | *C#, .NET, ODC* GitHub
 - High-performance C# math extension for OutSystems Developer Cloud. Library providing advanced Linear Algebra, Bitwise operations, and Combinatorics to extend ODC low-code capabilities.
- **OtakuDash** | *Python, Front-end* GitHub
 - Modern Python application for tracking desktop anime release schedules using CustomTkinter and Jikan API.
- **Kanban TUI** | *Go, Back-end* GitHub
 - Lightweight terminal-based keyboard-centric Kanban board built with Go and the Charm ecosystem.

CERTIFICATIONS

- **OutSystems - Responsive Web Design:**
- **OutSystems - Associate Developer (ODC):**
